

Answering a Phone Call

A phone call will go full screen either when the phone is **locked** or if you **do not have any apps open**.

To answer, **tap and hold** on the **green icon** and **swipe it up**.

To decline, tap and hold on the **red icon** and swipe it up.

If you have an app open, the phone call will appear in a small box at the top of your screen. To answer or decline, you only have to **tap the icons**, no swiping needed.
