

# Making a Phone Call on Easyphone Device

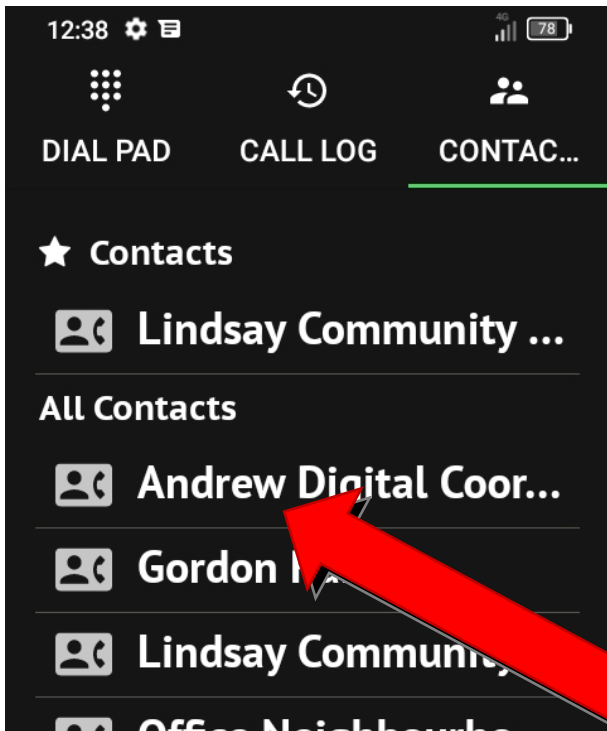

Start by **tapping** on the **green phone icon** in the top left of your screen.

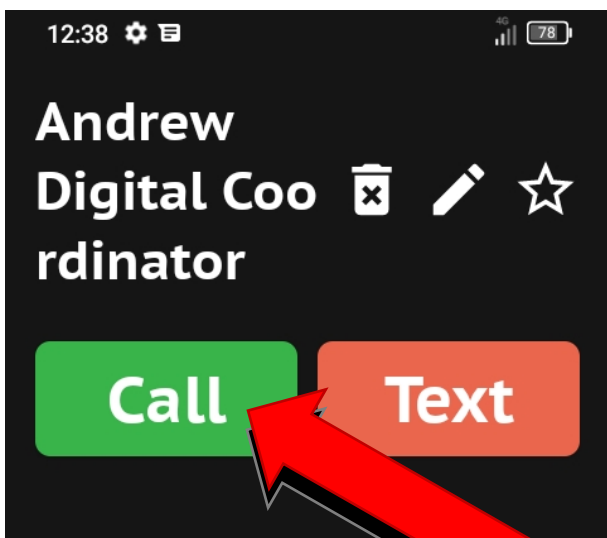

You will then see a traditional number pad.

Find a contact by tapping the **contacts** icon in the top right.

The icon is of **two people**.

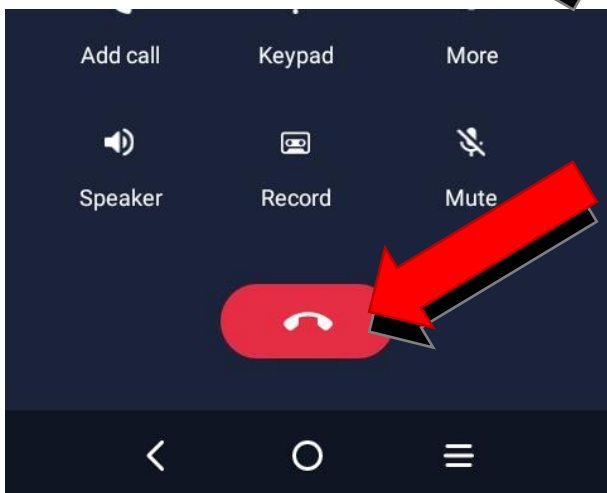

When you see your contacts, tap on the **name** of the person you want to call.

Double check that the name is correct, then tap on the **green** button to start a call.

When the screen changes, you can put the phone up to your ear.

End the phone call by tapping the **red** button.
